OBSERVATIONS

To The Knocker.

Why go knocking, knocking, knocking all the time and everywhere? Don't you know that men will do what you if your words are never fair? Why insist that Smith has never done a thing to merit praise? Why point out the faults of Adam or Vastler's foolish ways? Why not dwell sometimes on subjects of a cheerful, hopeful kind? Why keep hunting for the troubles of those who search may always find? Why go knocking, knocking, knocking when you often, if you would, might discover fair excuses to be saying something good? Don't you know that other people soon or late, must think that you if you see no good in others, lack the many virtues, too? Why refer to others always in sneering, snappish way? Why not be discreetly silent if there's nothing good to say?
—Chicago Record Herald.

WELL FITTED—The Mari on County Leader last week says: "When we consider how complete are our lives, our liberty and our property, in the hands of the judges of our courts, how they can play with the one or the other, even as a cat does with a mouse, and make of them the same end, it must become apparent to every thoughtful person that judges are often replete with only a modicum of care, when the greatest interest of society demands the most exacting scrutiny. Mr. John W. Lewis will make an ideal judge, so well fitted by his nature, and trained by education, for so responsible a position."

HARD BLOW—The jury in the Federal Court which fixed the punishment of those night riders who were charged with having whipped Mr. Halowell in Caldwell county at a fine of \$85,000 delivered a stinging blow at the pastime of night riding and klu-kluxing, which has been indulged in to a great extent throughout the tobacco districts much to the disgrace of Kentucky. The good people of Bracken county should certainly lend every encouragement possible to the authorities in the effort to bring about the conviction of the guilty parties. The Courier Journal in commenting on the situation says: "The beginning of the end of night riding is at hand. Considerable litigation to fix responsibility for the crimes committed in the tobacco districts is to come, in criminal and civil courts, and no doubt in State and Federal courts. To the end that the mills of the gods, which are slow enough in any event, shall grind as rapidly as may be, and exceedingly fine withal, the authorities should, and doubtless will exert every effort to bring to proper punishment witnesses who are fair game for night riders. A few examples of what may be done to men who can be prepared to aid in the manufacture of alibis would go far toward simplifying prosecution and reducing the expenses of litigation. The verdict at Paducah, although a stockholder for the night riders of Caldwell, was merely a lick and a promise to the night riders of Kentucky, to put a new meaning into an old phrase. Persons who have contemplated doing any little kindness to neighbors in the way of appearing as alibis, witnesses regardless of the law and the facts, or who may be approached upon such matter, would do well to reflect that p jury is felony and stand from under while there is yet time."

SHORT CROP—That the tobacco crop in Washington county will be decidedly short this year is conceded by everyone. Several things have conspired to bring about this state of affairs. In the first place the "no crop for 1908" movement had a good many converts in the county and many growers voluntarily decided to cut out the crop and not a few others were persuaded to leave off the planting of the crop rather than to our trouble which appeared to be threatening from many sides. Another factor and the most

effective one has entered into the fight against the no crop movement and that is the weather. Up to the present time there could scarcely have been found a more unfavorable season for the planting of a tobacco crop. The rains have been so continuous that the farmers have had practically no opportunity to prepare their ground for the setting out of a crop. Plants are also said to be exceedingly scarce. Many farmers declined to sow any beds owing to threats from night riders at the time and the few who did brave the dangers of planting beds in the face of warnings are not inclined to indulge their timid neighbors by sharing their plants with them. Many who have changed their minds about planting a crop are now offering extravagant prices for plants in the beds but find them hard to buy.

When you think of indigestion think of Kodol, for it is without doubt the only preparation that completely digests all classes of food, and that is why you need when you have indigestion or stomach trouble, some thing that will act promptly but thoroughly something that will get to the trouble and do the work itself for the stomach by digesting the food, that you eat and that is Kodol. It is pleasant to take it is sold by the Red Cross Drug Store.

A Fine Stock Farm

Mr. Hunter Mason, one of the most prominent brokers in Louisville, has an elegantly equipped stock farm a few miles from Louisville and has at the head of his stud that handsome and game son of old Caesar Dare 10, "Chesterfield." Chesterfield is a most prolific breeder, with a wonderful head and is in every sense of the word a fine horse. Mr. Mason's band of mares are all of the most fashionable strains, he having expended much time and money in the accumulation of the very best registered stock obtainable in the State. The saddle horse breeders are to be congratulated on the acquisition to the ranks of this "Chesterfield" gentleman as he is a man of extreme culture and refinement.—Farmers Home Journal.

DeWitt's Little Early Riders are small and safe and sure and gentle little pills. Sold by Red Cross Drug Store.

Pool Wool Crop

The farmers of Harrison and Franklin counties have pooled their wool and it is hoped to induce all the counties in the Blue Grass sections to join with them. Owing to the material decrease in the price paid by buyers for wool in its natural state, it is believed by forming the pool the old price can be realized. It is said that wool this season is lower than it has been for many years, which is said to be due to the closing down of the plants of the woolen manufacturers for the time being. At the beginning of the season wool brought 50 cents, then it went to 19 1/2 and much of it has been sold in the last few days for as low as 17 cents. The wool season begins about April 15th, when the farmers begin to shear their sheep and lasts until about June 1st. Some objection to the wool grown in Central Kentucky is made by the manufacturers on account of the universal use of sisal

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way. The children cannot properly be kept healthy unless the blood is pure and rich. Get Ayer's Sarsaparilla. It is sold by all druggists and is the best of all blood purifiers. Made by J. C. Ayer & Co., Lowell, Mass. BARELY USED. CURET FECTUAL. We have no secret! twine instead of the hard hemp twine in tying the bundles. Little flakes from this sisal twine get in the wool and it goes through all the processes of manufacture and cannot be eliminated.—Harrodsburg Democrat.

In Name Only.
A special from Washington, Pa., says: Stephen Girard and Grover Cleveland now occupy cells in the Washington county jail. Girard, who is not the founder of a Philadelphia school, is charged with stealing 200 feet of wire. Cleveland, who says he never occupied the Presidential chair, was jailed for forging freight trains.
Another special from Philadelphia says: William Jennings Bryan fell into a coal bin, but it wasn't Willie from Nebraska.

Give Chamberlain's Cough-Remedy will keep the cough loose, expiratory easy and render the site coughing less frequent and less severe. It is safe and sure. For sale by the Red Cross Drug Store.

Seek to Regulate Business.

Hopkinsville, Ky., May 15.—Merchants of Fembroke have received night rider letters threatening them not to buy goods from the wholesale houses of Hopkinsville and Clarksville. The letters were typewritten signed "N. R." and were mailed on the train. It is not believed that the association is behind the movement, as the tobacco buyers of both cities are buying association tobacco every week and much of the former bad feeling has disappeared.
The letters are probably the result of a movement to benefit the other towns at the expense of Hopkinsville and Clarksville. The warnings have had no perceptible effect on the business of Hopkinsville, and they do not appear to be taken seriously.

Valued Same as Gold.
B. O. Stewart, a merchant of Cedar View, Miss., says: "I tell my customers when they buy a box of Dr. King's New Life Pills they get the worth of that much gold in weight, if afflicted with constipation, malaria or biliousness." Sold under guarantee at Haydon & Robertson's drug store, 25c.

Unimagined as Y Care of Croup.

"Besides being an excellent remedy for colds and throat troubles, Chamberlain's Cough Remedy is unequalled as a cure for croup," says Harry Wilson of Waynesboro, Ind. When given as soon as the croup cough appears, this remedy will prevent it. It is especially good for children. Sold by the Red Cross Drug Store.

Proof Positive.
"Mr. Lee Riker has never found but one of the dogs that damaged him to the tune of \$286 by breaking into his flock and killing and injuring twenty-six sheep. As stated, the one killed belonging to Sid Ma'moon, a tenant on the Riker farm. Mr. Marimon did not believe his dog was guilty, so a price was set on the dog with the understanding that after he was executed if proof was not forthcoming that he had been implicated in the sheep killing then Mr. Riker was to pay the price agreed on as the value of the dog. After the dog was shot he was dissected and a gallon of sheep's blood and a ball of wool were found in his stomach. This convinced Mr. Marimon that his dog was guilty as charged in the indictment and had no just deserts. So Mr. Marimon got a py for his canine. Harrodsburg Herald.

Horses Killed.

On Wednesday night lightning killed two horses for Mr. Richard A. Vandiver, who lives on the Cornsboro road. The animals were standing about 150 yards from the house in a little valley. Mr. Vandiver's father and mother who live with him are both very ill in bed, and Mr. Vandiver was sitting up with them. The shock that killed the horses jarred the furniture in the house to such an extent that it rendered his mother unconscious. One of the animals was a Norman horse which weighed 1,500 pounds and which Mr. Vandiver says he would not have taken \$500 for and the other animal was valued at \$100.—Harrodsburg Herald.

Leap For Life.

The automobile of Mr. G. B. Marks, the well known lumber man of Springfield, left the road and leaped over the abutment of the bridge into Pitman creek, about two miles from town on the Lebanon pike Monday morning, resulting in smashing the machine and slightly injuring Mr. Marks and his companion and partner, Mr. Clifton Green.

They were coming down the long grade on the north side of Pitman creek at the rate of about thirty miles an hour, when the steering gear refused to work and instead of making the curve with the road the machine went in the opposite direction and leaped into the water below the bridge. Fortunately the machine landed on its wheels without turning over, but the jolt was so severe that the machinery was put out of commission, the front axle being broken, the hind axle sprung, water box cracked and various other parts more or less damaged.

Nine Men Held For Whipping Farmer.

Cadez, Ky., May 16.—Judge Bligham held the nine men arrested for whipping J. D. Coffey here in \$500 bond this afternoon. Coffey identified them positively and told a sustaining story of their whipping him and trying to force him to join the association.
In several other cases tried this afternoon, the prosecuting witnesses were unable to identify the prisoners and they were accordingly discharged. Soldiers under Major Bassett and Capt. Gieson arrived here to-day.
Coffey and his three sons testified that on Sunday, March 8, Hugh Wallace as leader of the men, came to his house and insisted that he join the night riders. Wallace is said to have told Coffey that there was business at Golden Pond to be attended to and Coffey's help was needed.
After the attack on Golden Pond Coffey said that Wallace and his band visited him one night and gave him lashes on the back.

In the leap Mr. Green was thrown from the machine and his ankle was bruised and sprained and he was slightly injured about the chest and stomach. Mr. Marks remained in his seat and went down to the end of his wild ride, with the result that he received no injury except from the fright and the shock of the sudden stop.

He walked into town about nine o'clock and secured a team and went back and brought the wreck to the Campbellsville machine shop where Mr. A. C. Gurrey succeeded in putting it in running order by six o'clock that evening.
Mr. Green returned home on the afternoon train and Mr. Marks braved the danger of the battered automobile and we suppose he landed home safely as we have heard nothing to the contrary.—Campbellsville Enquirer.

great many Springfield and
Washington county people are
attending.

The first ball game of the
season was played last Saturday
between the St. Marys Jr.'s and
the home team composed of boys
under 14 years of age. The
game lasted twelve innings and
was a corker from start to finish.
It was the best played game that
has been pulled off for several
seasons and the kids handled
themselves like old heads.

Springfield with the kind assis-
tance of two umpires won out in
the twelfth, the score standing
5 to 4. The features of the game
besides the umpiring of
"Jockey" Colvin and Harry
Shultz who were told "we must
win" was the all round playing
of Louis Barry and Frank Medley.

Closing Exercises

The commencement exercises
of the Springfield Graded School
which were held in the Opera
House Tuesday night were
highly pleasing and thoroughly
successful in every respect and
reflected great credit upon Prof.

The trouble with most cough
cures is that they constipate. Ken-
ned's Laxative Cough Syrup does not
constipate, but on the other hand it
has active principles, gently move
the bowels. It is pleasant to take and
it is especially recommended for
children as it tastes nearly as good
as maple sugar. Sold by the Red Cross
